COMMANDCENTRAL RECORDS STANDARD

RISING UP TO THE NEW CHALLENGES OF RECORDS MANAGEMENT

Your officers' time on the street is critical, but being forced to rely on handwritten notes, manual forms and outdated records systems can slow them down. With the growth of digital evidence and new state and national Incident-Based Reporting (IBR) standards, the records burden on agencies has never been greater. Protecting, managing and sharing your records with other agencies and prosecutors is critical. CommandCentral Records is a scalable, easy to use and secure solution to help you simplify data management, accelerate incident reporting and successfully build and close cases.

WHY COMMANDCENTRAL RECORDS?

ACCELERATE INCIDENT REPORTING

CommandCentral Records gives your officers time back during their shift to connect with the community and the people they serve.

SIMPLIFY DATA MANAGEMENT

CommandCentral Records helps your agency comply with IBR requirements and court orders without overwhelming your staff.

SUCCESSFULLY BUILD AND CLOSE CASES

CommandCentral Records provides simple and secure case management, which you can easily share with prosecutors and other agencies.

MOTOROLA SOLUTIONS

KEY FEATURES

Unified Search
Find the information you need faster with an internet-like search across all agency data.

Assisted Narrative
Officers dictate their incident narrative, which is automatically transcribed into text.

Arrest Reporting with Pre-Booking
Transfer relevant data to the jail with an integrated arrest form within the incident report.

State IBR Submission
Send crime data reports automatically with both state and federal-specific IBR submissions.

Automated Retention Tools
Avoid overtime and liability with automated retention, deleting, sealing and purging of records.

Record Quality Control
Keep your data clean by automatically identifying, merging and deduplicating records.

On-Site Media Capture
Capture images, video and audio on scene with a mobile device.

Digital Evidence Collection
Gather digital evidence directly from citizens via an agency generated link or QR code.

Digital Evidence Management
Automatically organize all incident content within the record with embedded digital evidence management capabilities. 250GB of Multimedia Storage is included at no charge.

Expungement & Redaction Tools
Protect personally identifiable information with point-and-click, object-based redaction.

Task Assignment & Alerting
Resolve cases faster with stronger, more efficient collaboration between teams and agencies.

Workflow Management
Automate the review processes to minimize rework and eliminate wasted time.

Judicial Sharing
Control a timely flow of information with digital package sharing, keeping key partners up-to-date.

Trusted Agency Sharing
Remain in control of your data when you share case information with other agencies.

Crime Predictions in Dashboard
Monitor activity and set threshold alerts to identify and proactively address crime trends.

Consolidated Record View
Efficiently enter incident information within one user interface, so officers can spend more time in the field.

Report Auto-Population
Enable the creation of an incident report using data from a CAD incident, minimizing data re-entry.

Compliance Verification
Prompt officers for the information they need, so you can check reports before submission and save time.

Data Insights Reporting
Access pre-built reports and dashboards for the insight needed to make data-driven decisions.

Custom Code Table Setup
Maintain compliance to IBR standards while ensuring your team stays proficient.

THE COMMANDCENTRAL PLATFORM

CommandCentral Records is a powerful and flexible solution to manage incidents and digital evidence. But, it's also a part of something more. We build software for mission-critical environments where every second matters. By unifying big data and streamlining workflows from call to case closure, CommandCentral puts your information to better use, improves safety for critical personnel and helps keep your focus on the communities you serve.
